WorldMed™ Insurance

› WorldMed™ Insurance is your affordable solution!

WorldMed™ is designed for people who are traveling outside their home country from 15 days to four years, providing high limit illness and accident expense protection for a reasonable cost.

If you are injured or become ill while abroad, you can rely on WorldMed™ to reimburse you for your covered medical expenses. Major expenses can be paid directly to the medical or evacuation provider. You pay the deductible and coinsurance if applicable.

WorldMed™ also provides you with 24-hour access to emergency assistance services which can help refer you to local doctors or hospitals, provide multilingual interpretation, arrange your emergency medical evacuation, keep in touch with your physician and family back home, and more.

› International medical care can become a major expense to your family.

Traveling or living abroad can be an exciting, fulfilling experience. However, every year many people visiting foreign countries require emergency medical treatment, hospitalization, or medical evacuation to their home countries.

A major illness or injury could cost you US\$100,000 or more, and a medical evacuation as much as US\$100,000 (Asia to the U.S.). For most families, this would cause a severe financial strain.

› Your present insurance may not pay for international expenses.

Traveling U.S. residents will find that Medicare and most Medicare supplement plans offer little or no protection outside the U.S. Further, many U.S. medical policies, HMO's and PPO's provide limited international benefits, and most do not pay for medical evacuations. Visitors to the U.S. will find that doctors and hospitals may not accept insurance issued in a foreign country and direct claims payment may be unavailable. Benefit limits may also be inadequate.

» Benefits and Limits
